PROFESSIONAL EXPERIENCE

- NoCountry
from
july 2024
- Frontend Developer - UI/UX
- Currently collaborating in the design and front-end development of a webapp platform for event management “Celebria”, that includes a calendar system, email and mobile notifications, and a photo upload database. My responsibilities include designing and developing user interfaces using Figma, React.js, Tailwind CSS and JavaScript, implementing reusable components, optimizing application performance and integrating RESTful APIs. I participate in monthly code reviews where constructive feedback is applied. The project was deployed using Vercel, ensuring mobile adaptation through responsive web.
- NoLock
jun 2022
to
jan 2024
- Frontend Developer - UI/UX - Tester
- Like freelancer I had the opportunity to be part of several challenging projects and learn new programming technologies and software production processes. I worked using React.js, Tailwind CSS, Next.js, Figma, C# .NET, Blazor, HTML5, CSS3, JavaScript and Cypress.io.
- Holitrends: End-to-end testing for a CRM system used by travel agencies, ensuring the operation of all web. Stack: Cypress.io, JavaScript. [//holitrends.com/](#)
 - Hpy Camper: I designed the mobile version and developed the frontend of a camping reservation platform in Sweden. This project allowed me to learn a new programming language in a quickly and in a non-educational environment, which was a challenge as I had to meet the deadlines of the team I was part of. I focused on creating intuitive and accessible interfaces. Stack: Figma, React.js, Tailwind CSS, Next.js. [//www.hpycamper.se/](#)
 - Alize 2.0: The project involved a complete redesign of a web platform for technical assistance and warranty tracking. I also participated in the frontend development of some screens within the platform, following guidelines previously defined. Stack: C# .NET, Blazor, HTML5, CSS3, Figma. [//alize.es/](#)
 - Hypervisoul: Using Figma I designed the web for a working prototype of a real-time traffic monitoring application. It was quite a challenge as I had to work from sketches, and the result was a very simple and easy to use web design. Stack: Figma. [//hypervisoul.com/es/](#)
- FabricArg
feb 2022
to
jun 2022
- Frontend and Backend Developer
- University internship focused on learning and applying C# and SQL Server. Development of backend and frontend functionalities with focus on short and long term analysis and troubleshooting using coding standards and performance optimization.

EDUCATION

- 2020 - 2024
Córdoba Higher
Technical Institute
- Software Development
- Principles of logic and programming, computer architecture, operating systems, applied mathematics, system modeling, advanced programming, and databases. Learned C#, Python, Haskell, HTML, CSS, jQuery, and Java. Participation in hackathons and seminars.
- 2024
Udemy
- Docker, Kubernetes, Jenkins, AWS & Git
- Fundamentals of DevOps, using essential tools such as Kubernetes, Docker, Jenkins, AWS, Git&Github, and Ansible, with a focus on cluster implementation, container management, pipeline automation, and cloud management.
- 2023
Córdoba
Polytechnic Institute
- Programming
- Course with a duration of 364 hours with certificate issued by the Ministry of Education of the Province of Cordoba.
- 2022
Udemy
- React y Redux, React Router, TailwindCSS, Context and Hooks.
- Creation of dynamic web applications using React, TypeScript, Redux, and TailwindCSS, mastering client-side navigation, form handling, state management, API requests, and performance optimization.
- 2021
Udemy
- Web and mobile design with Figma
- Skills in planning, strategy, and creation of digital and analog products, with a focus on UX Research, usability testing, and user flow design. Prototyping in low, medium, and high fidelity, applying design and navigation patterns.
- 2020
Udemy
- Blazor - .NET Core 3.1 and WebAssembly
- Development of interactive web applications with C#, using Blazor WebAssembly and Blazor Server, focusing on creating reusable components, handling events, and working with RESTful APIs.
- 2017
Cisco
- IT Essentials
- Fundamentals of networking and information technology, including installation, configuration, maintenance, and troubleshooting of computers and networks, hardware, software, and security.
- 2017 - 2018
Córdoba National
University
- English Translator
- Advanced language proficiency, including grammar, syntax, phonology and vocabulary expansion.
